THE SENATE HAS IT.

Treaty of Peace Submitted by the President.

Only a Simple Message Submitted With the Document.

Senate at Once Goes Into Executive Session.

Treaty Will Not be Made Public Until Committee Acts Upon It—The Rome to Session.

WASHINGTON, Jan. 4.—When the senate went into executive session today the peace treaty which had just been received from the president was laid before the senate by Senator Frye, who occupied the chair in the absence of the vice president.

The treaty was not read, but the president's message accompanying it was.

This was a simple letter of transmittal, without any word of recommendation or suggestion and was only a few lines in length. On motion of Senator Davis the treaty was referred to the committee on foreign relations and ordered printed for the use of the senate.

No order was made looking to making the treaty public, but it is understood that this will be done after the treaty is passed upon by the committee.

Senator Davis entered a motion today to make the treaty and the proceedings of the commission public, but upon the suggestion of Senator Allison he withdrew that motion for the purpose of allowing the committee to act upon it.

A meeting of the committee on foreign relations has been called for Friday and it is probable that the committee will then bring in a resolution for the publication of both the treaty and the proceedings.

THE HOUSE.

WASHINGTON, Jan. 4.—There were less than 100 members on the floor when the house met at noon today after the holiday recess, but the attendance in the galleries was large. Mr. Simpson, populist, of Kansas, and Mr. Lewis, democrat, of Washington, appeared in their places for the first time this session and attracted considerable attention. The third chaplain in his vocation referred feelingly to the critical illness of Mr. Dingley, the floor leader, and prayed fervently for his speedy recovery.

Under the special order adopted before the recess the house took up the consideration of the bill to define and punish crime in the district of Alaska and to provide a code of criminal procedure for the district.

TO STICK TOGETHER.

Anti-Quay Men Will Keep Up the Fight.

Will Wait Until the Supreme Court Disposes of the People's Bank Wrecking Case.

HARRISBURG, Pa., Jan. 4.—The republican senators and members who signed the pledge not to take part in last night's senatorial caucus organized today to keep up the fight against Senator Quay until after the supreme court has disposed of the People's bank complication case. The meeting was attended by nearly all the signers and two others who did not sign, but kept away from the caucus.

Gen. William H. Koontz, of Somerset, called the meeting to order and nominated Senator William Flynn, of Allegheny, for chairman, and Senator Henry, of Philadelphia, and Representative Robert K. Young, of Tioga, for secretaries. Secretary Flynn said there was no necessity for holding a senatorial caucus last night and that so long as those who stayed away stood together there could be an election of a United States senator.

What he wanted was more light on the charges pending against Senator Quay, to ascertain whether he is a proper person to be elected to the United States senate. Mr. Flynn also said that he interpreted the pledge binding the independents to keep out of the caucus to mean they would not vote for Mr. Quay until the supreme court has disposed of the conspiracy cases, and that if the senator was not in better position after its action than he is now, they cannot vote for his re-election.

Senator-elect David Martin, of Philadelphia, who will be qualified January 17th, when the house and senate will vote for senator, concurred in what Senator Flynn had said. This was his interpretation of his pledge and he would stand upon this platform.

A committee was appointed to take charge of the work of the organization.

The committee will prepare a public statement outlining the policy and plan of action of the Independents.

BIRDSEYES' ELECTION ASSURED.

DETROIT, Mich., Jan. 4.—A News special from Lansing says:

Albert Pank has issued a letter formally withdrawing from the senatorial contest. Everything had been staked on the election of Carlton to the speakership. When he was defeated last night in caucus Mr. Pank conceded that nothing could prevent the re-election of Senator Burrows, and did not care to continue the fight merely for the sake of making a showing.

BIXBY ON TRIAL.

His Attorney Offers Insanity in His Defense.

Evidence That His Mother and Other Relatives Are in Insane Asylums—Court Notes.

H. A. Bixby, the ex-public attorney, is on trial before Judge O'Rourke and jury today on a charge of having procured money under false pretenses. Prosecutor Dougliman appears for the state and W. P. Breen is defending Bixby. The evidence showed that Bixby had purchased law books for $48, paying $8 cash and giving notes for the balance. He then mortgaged the law books to Sarah J. Clutter for $65 and later mortgaged them to Mrs. Griffin for $80 and never paid for the books. Both sides presented depositions taken in Michigan. Bixby went on the stand at 2 o'clock this afternoon and told the story of his life almost exactly as printed in THE SENTINEL several weeks ago.

During the testimony it developed that at the present time Bixby's mother and one of his aunts are confined in the insane asylum at Kalamazoo, Mich., and another aunt is confined in an asylum at Dayton, Ohio. His grandmother had also been treated for years for insanity.

When asked if at times his own mind was not affected Bixby replied that sometimes people told him he was "cranky." Attorney Breen makes his defense on the grounds that Bixby is insane. The evidence will be completed this afternoon and the jury will then take the case.

A REVOLT IMMINENT

Critical State of Affairs in Santiago.

Cubans Incensed at Orders by General Brooke.

Whole Province on the Verge of Insurrection.

Situation Grows Out of Brooke's Efforts to Ignore General Wood in Conduct of Local Affairs.

SANTIAGO DE CUBA, Jan. 1.—Meetings were held at all the political clubs last night, and even the most conservative people, those favoring the annexation of Cuba to the United States, were astounded at the orders from Havana for the centralization of the customs money there. The past forty eight hours have completely altered the situation of affairs here. The provinces had gradually settled down, and was contented with the order of things prevailing, recognizing the benefits conferred.

Now there is a complete change and there is no exaggeration in saying that the situation is critical, that a spark would set up a blaze which would plunge the province into insurrection.

It is generally admitted that if one thousand men were suddenly discharged from the public works, bad action would probably ensue a proof which it would be hard to quell.

Maj. Gen. John R. Brooke, the governor general of Cuba, is apparently ignoring General Leonard Wood, in command here, and is cabling direct to his subordinates.

He has ordered the acting collector of customs to bank no money and the commanding general of the province has ordered the postoffice to close several minor offices, including Songo and Sayasso, practically shutting off the mail of the sugar districts there.

Dr. Castillo will accompany General Wood to Washington, representing the British interests in Santiago, to lay those matters before the president.

General Wood's work here is now more thoroughly appreciated by the Cubans.

HIS FIRST MESSAGE.

Governor Roosevelt's Maiden Paper of State.

Declares Nothing Should be Given Back to Spain—Pensions Enforced in New York City.

ALBANY, N. Y., Jan. 4.—The state legislature convened today. In both the assembly and the senate the republican caucus nominees were elected.

Fred Dixon, of Chautauqua county, was made speaker of the assembly, and Archie Baxter, of Chemung, was chosen clerk. In the senate T. E. Ellsworth, of Niagara county, and James E. Whipple, of Cattaraugus county, were elected temporary chairman and clerk respectively. After a brief address by Lieutenant-Governor Woodruff, the annual message of the governor, Theodore Roosevelt, was read.

HIS FIRST MESSAGE.

Governor Roosevelt's message opens with a reference to the situation with which New York responded to the call for volunteers to engage in the war with Spain.

"We are Americans," the governor continues, "and the interests of all Americans are equally dear to the men of the whole state. As we grow into a mighty nation which, whether it will or not, must inevitably play a great part for good or evil in the affairs of the world at large, the people of New York want it understood that they look at all American questions of foreign policy through a national standpoint. The tropical islands we have taken must neither be allowed to lapse into anarchy nor to return under the sway of tyranny. War is a grim thing at best, but the war through which we have passed has left us not merely memories of glory on land and sea, but an even more blessed heritage, the knowledge that it was waged from the highest motives, for the good of others as well as for our own national honor."

Governor Roosevelt discusses the subject of state labor laws at considerable length.

Under this head he says:

"In dealing with the interests which have grown to group together as the interests of labor, we must always keep in mind the fact that ultimately each man's salvation rests mainly with himself, and that no amount of legislation or of combination can supply the lack of individual initiative, the lack of individual energy, honesty, thrift and industry.

"Yet, the capacity for individual self-help can, and should be generally supplemented by that form of self-help that follows on organization and association, as he has shown by the careers of many of the trade unions and labor federations; and sometimes it can be supplemented by the direct action of the state itself.

"This legislation is not necessarily against the interest of capital; on the contrary, it wisely devised it is for the benefit of both laborer and employer."

After mention of subjects that are of exclusively state interest, Governor Roosevelt says:

"In New York city, even more than in the state, there is need of cutting down the salaries of certain officials, of forcing others to do more work, and of altogether getting rid of yet others. The present police system in New York may become very serious; I may find it necessary to communicate with you again on this matter."

ENTERS A DENIAL.

Spain Meant Not to Embarrass the United States.

Evacuated Philippines Quickly Because it Was Believed It Was Required as in Case of Cuba.

MADRID, Jan. 4.—The statement that the Spaniards evacuated Iloilo in order to render the situation more difficult for the Americans is positively denied here. It is stated here that the Spanish government, immediately after the signing of the treaty of peace, ordered the Philippines to be evacuated as soon as possible in order to avoid further bloodshed and "conform with the expressed wish of the Americans, who were very exacting, especially in the case of Cuba."

An interview with an ex-profect of a province of the Philippines is published here, in the course of which he is quoted as saying:

"President McKinley has shown complete ignorance of the situation in the Philippines. When the Americans occupied Manila there were only four insurgent provinces. The Americans scattered the rebellion and now they are themselves the victims of the support which they gave the insurgents who have become masters of the entire archipelago, except Mindanao, where the natives, who are mussulmans, have refused to recognize American rule, although they have not revolted.

"Aguinaldo's unpopularity is due to his friendship for the Americans. His treatment of Spanish prisoners has been horrible. Monks have been murdered through the streets. led by cords attached to rings through their noses, and others have been employed literally as beasts of burden. A thousand have died of ill-treatment."

WITHOUT MONEY.

Doors of Old National Bank Vault Wouldn't Open.

Mistake in Selling Time Locks Causes Some Inconvenience—Other Banks Come to the Rescue.

The Old National bank had to do business yesterday on borrowed money. This statement without explanatory details might cause a run on some of the best banks in existence, but the circumstances attached to the case exonerate this big monied institution from any suspicion of insolvency, inasmuch as this state of affairs lasted only one day and while it did last the bank had $200,000 snugly tucked away in its big vault.

The vault was locked by one of the improved time locks and owing to a mistake in setting the dial when the vault was closed the massive doors were sealed for every minute up to 8 o'clock this morning. Last Saturday the lock was set for 8 o'clock Monday morning and Monday being a holiday the assistant cashier set the dial so he supposed to open Tuesday morning at 8 o'clock. He set it for Wednesday morning, instead, and it is needless to say that there was consternation among the bank officials and clerks when the big safe wouldn't open yesterday morning.

Two hundred thousand dollars, approximately, were locked behind those doors, as well as all of the notes and other negotiable papers with which the bank did its business. Not a cent, outside, it was with considerable alacrity that the various attaches went to the other city banks and procured funds which President S. B. Bond and Cashier J. D. Bond had made arrangements to use for the day's business, and when the bank opened at 9 o'clock the business went right along with the exception of that part of it where parties wanted to pay off notes.

This morning, ten to the second on its time, the clock-work sprang open the lock and the doors of the vault were swung. The bookkeepers are hard at work today as a result of yesterday's delay, but aside from this there was only a little inconvenience over the mishap.

The First Church of Christ, Scientist, holds testimonial services this evening at 8 o'clock, in the Odd Fellows' building, second floor, No. 39 West Berry street.

STREET CAR HITS A WAGON.

A Spy Run avenue street car hit a farmer's wagon on Spy run avenue last evening and caused the horses to run away. The last seen of the runaways they were flying north on Spy Run avenue. The farmer, who occupied the wagon, jumped and escaped injury.

OTHER ACCIDENTS.

Warren Geake was brought to his home, 251 West Jefferson street, Tuesday, suffering from a fracture of the skull, caused by a brick falling from the court house in process of construction at Hillsdale. Mr. Geake was employed on the building. Dr. G. C. Stomen, who attends him, says that the patient is also suffering from an attack of the grip.

Herman Keenenman, of 32 Calhoun street, while handling a revolver had the misfortune to accidentally discharge the weapon and the ball passed through the palm of his left hand.

Mrs. Jane Fitzgerald, living near Lee, while driving across the South Calhoun street railroad crossing Monday afternoon lost control of her horse, which had become frightened at a street car, and the animal caused the carriage to collide with a post. The horses broke and the horse released itself from the vehicle. Mrs. Fitzgerald continued to hold the lines, however, and was dragged out of the buggy and along the pavement several yards before she let go. The horse ran as far as Baker street, where it was caught. The lady was picked up by Policeman Greer, considerably bruised but not seriously injured.

POLICE PENSIONS.

Legislature Will be Asked to Provide for Them.

Fort Wayne Officers Interested in Assisting in Securing the Passage of Police Pension Law.

Charles E. Hyland, chief of police of Terre Haute, has written to Superintendent Heaton requesting him to bring before the police officers of this city for consideration a bill creating a police pension fund similar to that now in force in the fire departments of the city. The police of Indianapolis have already introduced a bill which will affect cities of 100,000 or more inhabitants and the police of Terre Haute are making an effort to have the bill include all cities in the state of more than 30,000 population.

The bill provides for half pay in case of injury or sickness of an officer and in case of death for $150 funeral benefits. Provision is also made for the care of the officers' wife and children or other relatives who may be dependent upon him. It is also provided that an officer when retired at the age of fifty, can be retired on half pay, provided that he has been an active policeman for fifteen years or more. In case of retirement the officer is expected to respond to all duties which he is physically able to perform.

Superintendent Gerstlein is favorable to the bill and the local police will be asked to take some action on Chief Hyland's request.

FIGHT GETS FIERCE.

Progress of the Senatorial Struggle.

Frank Hanly's Forces Held a Night Caucus.

The Contest Now Between Taylor and Hanly.

Fort Wayne Men Will Probably Throw the Break Comes—Judge Taylor is Taken Ill.

INDIANAPOLIS, Jan. 4.—The senatorial fight has resolved itself into the most extreme intensity of hard work. It is still Hanly in the lead, with the enemy all parading against his strength by the online candidates. Only the pounding has become harder.

Judge Taylor is still looked upon as the man who will administer upon the remains of the other booms when the break-up comes.

The following of each of the senatorial candidates held conferences today but after the meeting it was not apparent that any new plans had been formed.

It has been mostly agreed that the caucus shall be held next Tuesday night. The general assembly will meet tomorrow.

The Hanly followers who have votes not lost night in the Denison. The meeting of the members favorable to the South district men was called for the purpose of assuring the Hanly managers that their force was not disintegrating and to have each man declare his intention to stay by Hanly to the finish.

At the meeting the Hanly lieutenants stated positively that there were twenty-six votes present and that each senator and representative present declared his intention of staying by Hanly to the finish.

The lieutenants of one of the other candidates, however, said that there were twenty-six present, but four were not members and one of the twenty-two members present was pledged to theirjman.

The Hanly meeting has been called for some time and was to be one of the principal features of the campaign. The Hanly managers declare it was all they expected and they expressed themselves as entirely satisfied with the results. There were not a number present from Marion county. The Hanly people say they have ten votes that were not present at the meeting, but decline to name them.

MAKE NO CLAIMS.

The Hanly managers last night claimed it had been the most successful day of their campaign. They were confidently claiming victory and their headquarters continued to be visited by twice the number seen in any of the other headquarters. One of those most busy around the Hanly camp was Elmer Crockett, the state committeeman from the Thirteenth district, who was busying around as busy as a dog with a bad attack of fleas.

There has not been as yet any indication that the Hanly following is going to pieces, though it is believed to be weaker than it was Representative Parrose, of the Tenth district, is for Hanly, although at heart he is against him, but Senator Colbert, of Laporte county, though in the Tenth, is not for Hanly. He is inclined toward Staake and will support him after the first ballot, if not on the first.

A SECRET BALLOT.

The caucus will be held next Tuesday night and the vote will be a secret ballot. This is the campaign decided upon by the Hanly lieutenants and unless the other candidates combine and say differently this will be the program.

The Hanly lieutenants say they do not want to go into the caucus with more than ten votes, and will hold this number until the third ballot, when the Steele men claim to be able to pull something out of their sleeve which will be surprising. On the other hand, the Hanly people claim to have something concealed which will clinch their man, and so it goes. It is claimed by the Hanly opposition that five members of the Tenth district will desert Hanly on the first opportunity, and of these it is said Steele will get the majority while the rest will go to Taylor.

THE HANLY COMBINATION.

It has been demonstrated beyond a doubt that Frank J. Hanly, of Lafayette, has the most thorough organization and has succeeded in bringing to his aid some of the most skillful party workers in the state. Among these are George McClelland, former chairman of the state central committee; Charles L. Henry, former congressman from the Anderson district; Congressman Faris, Congressman Crumpacker and others of equal note and influence. His opponents admit that he is considerably in the lead and will enter the caucus with not less than twenty-eight votes.

Mr. Hanly's friends are very enthusiastic, but the managers of rival interests say that he cannot possibly command more than thirty-five votes. As it will take forty-five votes to nominate, the opposition believes he will certainly be defeated. It is admitted, though, that he has on the first ballot will give him great prestige as the caucus and it will take good generalship to hold him down to his initial strength.

Judge R. S. Taylor, of Fort Wayne, is second to Mr. Hanly in the number of pledged votes. Albert J. Beveridge of this city comes third, Frank B. Posey, of Evansville, fourth, and George W. Steele, of Marion, fifth. The friends of Judge Taylor believe the opposition to Mr. Hanly must eventually rally around him and they have entered upon the final canvass with a great deal of confidence.

Around the corridors of the hotels, in fact, the feeling is gaining ground that the fight between Messrs. Hanly and Taylor, and that the conservative course of the latter has made it possible for him to secure all the votes of the opposition on the final battle.

JUDGE TAYLOR TAKEN ILL.

Judge Taylor was taken sick last night while receiving friends in his headquarters on the parlor floor of the Denison and was assisted to his room. Dr. Runnels was called immediately and after being with Judge Taylor for upward of an hour pronounced his trouble something akin to the grip. He says the illness is by no means alarming and that Judge Taylor will in all probability be recovered in a short time. The other candidates expressed regret at Judge Taylor's illness.

WORKING FOR JUDGE TAYLOR.

The venerable and distinguished orator Isaac Jenkinson, of Richmond, is here in the interest of his old friend, Judge Taylor, and is most much in the Taylor headquarters. Mr. Jenkinson, as he sat in the Taylor headquarters, gave the Taylor campaign a stately and dignified appearance, and the appreciativeness of his presence there was commented upon, as the Taylor followers sat in a circle and listened to the most thoughtful and conservative members of the party.

HOUSE AND SENATE CAUCUSES.

The senate and house caucuses for purposes of organization will be held this evening. Frank L. Littleton, of this city, will be nominated by the republicans for speaker and Fred Kinsley, of Orange county, will probably be named for clerk. The organization of the senate has not been decided upon, but the friends of Rollin H. Oglesbee, of Plymouth, say he has enough votes to elect him secretary. The democratic minority has only picked one nominee as yet—Senator Shea, of Clark, Scott and Jennings, for president pro tem.

Mrs. Horton had been in failing health for some months and it was to gain strength that she went to her daughter's home two weeks ago. THE POLICE GOT HIM

Alleged Temperance Lecturer in Mayor's Court.

He Exhibited a Roaring Jag to the Public.

He Then Ran Afoul of Patrolman Ben Elliott.

Paid a Fine in Police Court—His Man Had Dates for Lectures in Ohio Towns.

The only prisoner in police court this morning was a one-armed man who gave the name of Hilton Barney. Officer Elliott arrested the fellow last night on a charge of being drunk and disorderly.

When the officer searched Barney they found several letters on him addressed to Rev. Hilton Barney and a perusal of them indicated that he was a temperance lecturer. According to the letters Barney had dates closed for temperance lectures to be delivered in Bowling Green and Gibbon, Ohio.

Barney did not deny that he was drunk but appealed for his release on the ground that it was his first offense. He was fined $1 and costs. The alleged lecturer produced $9 and the balance was remitted by Mayor Scheerer. After Barney paid his fine he commenced to quietly roast the mayor and police remarking that in other cities prisoners are treated for drunkenness were always released for their first offense, indicating that his first offense was committed quite often. He narrowly escaped being re-arrested for contempt of court.

Barney did not hitnself claim in police court that he was a minister of the gospel, but the letters found upon his person were prima facie evidence that he had that repute with his Ohio correspondents. It is doubtful whether Officer Benney held out enough funds to enable him to reach his appointments or not.

THIEF IS CAUGHT.

Chas. F. Himmelberger Robbed His Landlord.

He Left the City and Was Arrested by Pennsylvania Detectives at Crestline, Ohio.

G. W. Stites, landlord of a boarding house at No. 110 West Jefferson street, reported to the police last night that Charles F. Himmelsberger, a boarder, had left the place early in the morning, taking with him a gold watch and $1.20 in money. Mr. Stites gave the officers a precise description of the missing boarder and a search of the city failed to locate him. Captain Bell, of the Pennsylvania traffic force, notified his officers along the Pennsylvania to be on the lookout for the fellow and this morning a telegram from Crestline, Ohio, stated that he had been arrested in that city. Himmelsberger went west after Himmelsberger and will probably bring him to Fort Wayne on train No. 9 this evening.

RENT COMES HIGH.

The German Bergdorf Brewing Company Has Secured a $12,000 Contract.

The German Bergdorf Brewing company has just closed a lease with Mr. Siegel, in Chicago, for the building it now occupies with its saloon business at the southwest corner of state and Adams street, that city. The lease is for five years and the rental for the whole period is $175,000. This is a fair specimen of high rentals in the big city.

LOCAL LINES.

The little daughter of Mr. and Mrs. R. Brenner, of West DeWald street, is very ill with consilits.

Born, to Mr. and Mrs. Thomas H. Keaney, of 177 High street—a son. The father is a conductor on the Nickel Plate.

Charles A. Trisket, the well known traveling salesman, has resigned his position with the United Biscuit company to accept one with the Lafayette Crocker and Confectionary company, one of the largest establishments outside of the trust. Mr. Trisket will travel in Ohio and Michigan and will continue to reside in this city.

READ.

The following is a clipping from the great Boot and Shoe Recorder of Boston, Mass., written by their Toledo, Ohio, correspondent:

"H. R. Tobey, of Fort Wayne, Indiana, was in the city last week and stepped in to that place the entire stock of shoes formerly owned by Bill Brothers, who made an assignment several weeks ago. The shoes were bought at a low figure by S. B. Tuing & Co., of Boston, who operate a number of more store in different cities in the country, and they will be offered for sale at his Fort Wayne branch store. The stock consisted wholly of high-grade shoes, made by the best manufacturers, and will be offered to the public at a price below what they cost at wholesale."

The legislature will never be able to get away from the unpleasant fact that if it turns down Judge Taylor it turns down the best man of the whole lot.

ILOILO is running hard in the trial heats to get a place in the history of the Spanish-American war.

THE more the Cubans sample their adopted Uncle Samuel's style of government the better they like it.

THE news from Iloilo is most all reassuring. The rebels in possession of that place seem determined to have trouble of a kind they should have seen too much of lately to be so diligently courting it.

CONGRESSMAN ROBERTS, of Utah, is quoted as saying that the people of the United States ought to approve of his refusal to repudiate two or three wives. Perhaps the approval would be more general if it should occur to him to repudiate his election to congress.

REAR ADMIRAL DEWEY is now the ranking officer of the United States navy. Rear Admiral Sampson is fourth and Rear Admiral Schley is fifth on the list. These last two, however, still lack confirmation of their nomination by the senate, and there is some expectations of a hard fight before that happens.

HENRY SIEGEL, of the Siegel-Cooper company, proprietor of a big department store in New York, has given $200,000 as part of an endowment fund for the pensioning of employes who serve ten years or more with the company before being retired. In addition to this each employe of the company has received as a New Year's gift $1,000 insurance policy on which the premiums for the first year has been paid.

EVERY citizen of Fort Wayne who has it in his power to do anything to promote the candidacy of Judge R. S. Taylor for the United States senate should not withhold an effort. Republicanism can doubtless do a great deal. Democrats, it is well understood, can have very little influence in shaping the course of a strictly republican partisan movement, but it will not injure Judge Taylor's chances to let it be known in Indianapolis that his fellow citizens of Fort Wayne without regard to party are for him most heartily.

THERE appears to be little reason to hope that the fight against the re-election of Matthew S. Quay to the United States senate will succeed in Pennsylvania. The caucus held last night by the republican members of the legislature made Quay the nominee. He received 109 out of 164 of the republican votes. The votes fall eighteen short of the number necessary to elect him, but the senator himself and his friends declare that by the time the legislature meets to ballot enough republicans will be brought into line to defeat the opposition. The antagonism to Quay under the leadership of John Wanamaker has been bitter and was thought to be so well organized that Quay could not be nominated. As has been the case heretofore, Quay's strength was underestimated.

FRIDAY the non-partisan committee of twenty selected to discuss amendments to the city charter will have a meeting. A chairman of the committee has not yet been selected and that the political equilibrium of the committee may not be destroyed some one not on the committee should be chosen to preside over the deliberations. Col. D. N. Foster would make an admirable chairman. Being intensely interested in the work of the committee and the man who in the first place conceived the idea of the committee as well as one of the original framers of the present charter, his services as chairman of the committee would be invaluable.

GOVERNOR HASTINGS, of Pennsylvania, put some "warm stuff" in his annual message to the legislature, but it is not likely to result in much benefit to the commonwealth. The facts that banks loan millions of state funds to speculators, that one United States senator is under indictment charging him with a major felony and that the new state house now building is turning out to be a magnificent steal of a couple of millions, are pointed out in the governor's message. In spite of these things, and in spite of the subsequent fact that the indicted senator has just been made the caucus nominee of his party to succeed himself, Pennsylvania does not appear to be greatly disturbed. The people, if the last republican majority is a criterion, rather like that state of things. The future may hold in store a day of wholesome regeneration for republican politics in the state of Pennsylvania, but that day seems far off.

THE LEGISLATURE.

Tomorrow the Indiana legislature will assemble in biennial session. The first important duty to be undertaken will be the election of a United States senator to succeed Hon. David Turpie. Until this is done the majority party will be too much absorbed in the new very lively senatorial fight to permit much progress in legislation.

There is no legislation of paramount importance contemplated so far as known, other than that looking to return to township and county government. Tax laws, amusement restrictions, fee and salary regulations and legislative apportionments are not likely to be disturbed.

The state institutions will come in for a liberal share of attention, especially, it is hoped, the hospital for the insane. Every insane hospital in the state is overcrowded, and in the various county jails and infirmaries there are detained in the aggregate several hundred insane patients for whom no room can be found in the hospitals. In this connection the legislature will be urged to provide a hospital for the incurably insane.

Under the initiative of Governor Mount there will be an attempt to secure some drastic measures to prevent lynching. The disgraceful tragedy at Versailles more than a year ago and the more recent lynching in South county have aroused the people no less than the governor to an appreciation that something ought to be done to act as a deterrent of mob violence.

Of legislation specially important to Fort Wayne, certain proposed amendments to the city charter stand first. There is some probability that a measure providing the metropolitan police system for this city may be passed. Our people will be greatly interested in the appropriations that will be asked for the State School for Feeble Minded Youth.

There will be bills galore introduced, some good, some indifferent and some doubtless unmitigatedly bad. If the legislature does not exert itself with the passage of those measures of indisputable merit and stop it would be well for the state. Lawmakers as a rule work too much overtime and to too little purpose.

FIRM DISSOLVES.

Henry Pfeiffer Retires from Pfeiffer & Schlatter.

Papers Signed This Morning—Business Will be Conducted by Christian Schlatter.

This morning the well known hardware firm of Pfeiffer & Schlatter was dissolved, Henry Pfeiffer retiring. The business will be continued by Christian Schlatter.

The partnership was formed in May, 1893, prior to that time both of the members being employed at the house of Morgan & Beach. The business has grown to large proportions and the firm has enjoyed high rank as enterprising and trustworthy business men. Mr. Pfeiffer, who retires, has no plans to enter business again for a long time at least. He contemplates a trip with his family to Europe the coming summer. Mr. Schlatter has a wide acquaintance and a rich experience which will help him to sustain the handsome business to the old standard.

NEW SUPREME COURT SITS.

The Court Reorganized With Three New Judges.

INDIANAPOLIS, Jan. 4.—The supreme court reorganized yesterday and now contains a full bench of republican judges. Alexander Dowling and Francis E. Baker were sworn in before the clerk of the supreme court to succeed Judges McCabe and Howard. John V. Hadley was sworn in as Judge Hackney's successor about two weeks ago. Judges Monks and Jordan continue in office, as their terms do not expire for two years. The court handed down only one opinion, which was prepared by Judge Jordan.

The retiring judges of the supreme court all intend to resume the practice of law. Judge Hackney has already begun his duties as one of the attorneys of the Big Four railroad, with an office in the Majestic building in Indianapolis. Judge Howard will return to South Bend and reopen his law office. Judge McCabe has not matured his plans, but expects to rejoin his son, with whom he practiced a few years, at Williamsport, and open an office at some other place, possibly at Indianapolis.

NEGRO CONFERENCE.

Important Annual Meeting at Tuskegee Institute.

MONTGOMERY, Ala., Jan. 4.—The yearly Tuskegee negro conference held in connection with the Tuskegee Normal and Industrial institute at Tuskegee, Ala., will be held on Wednesday, February 22nd.

The attendance from all of southern states promises to be large. The meeting will be composed mainly of farmers, mechanics, teachers and ministers, and the subjects to be discussed will bear principally upon industrial, educational, mercantile and religious conditions of the negro. Special emphasis will be laid upon the importance of the colored peoples buying homes and making themselves proficient in all of the occupations by which they are surrounded in the south.

On February 23rd the annual workers' conference, which is composed of the presidents and instructors in the various negro schools of high grade in the south will occur.

SHERIFF HAS HIM.

Roy Wilkes and Other Horses of Calumet Stock Farm in Sheriff's Hands.

AURORA, Ill., Jan. 4.—The Calumet stock farm, together with forty head of horses and brood mares, including the famous pacing stallion Roy Wilkes (2:03¼), is in the hands of the sheriff.

The sheriff took possession to satisfy a judgment claim of $5,700 in two notes in favor of Mrs. Lillian N. Davies, wife of L. A. Davies, president of the company, for money loaned by her. The land is worth $20,000 to $30,000. The value of the horses should be ample to satisfy all claims. The sale cannot be held before January 11.

Miss Edith Hawley, of Huntington, called on Fort Wayne friends yesterday. Miss Hawley was en route to Wellesley college in Boston, after having spent the holidays with her parents in the Lincoln.

A HANDSOME HOME.

Allen County Building and Loan Association

Has Purchased From Dr. W. H. Knapp the Property at Southeast Corner of Berry and Clinton.

The Allen County Building and Loan association is said to be conclusions, and will some day have a handsome new home in which to transact the business of the association.

The officers of the association have just completed a deal whereby they become the owners of the property at the south west corner of Berry and Clinton street, now occupied by the Niswonger drug store. The property was purchased from Will E. Knapp, who was formerly a Fort Wayne dentist, and the consideration was $10,000.

The association has for some time been looking for a suitable location for office purposes and at the last meeting of stockholders the officers were instructed to make the purchase, the large increase in business necessitating more office space.

The offices of the association are now in the Hough block, on West Berry street, and the lease does not expire for more than one year. Before moving the Knapp building will be handsomely remodeled and an elegant suite of office rooms furnished.

FARMERS' INSTITUTE.

Allen County Agriculturists to Meet in Fort Wayne Next Monday.

The Allen County Farmers' Institute will hold its annual sessions in this city next Monday and Tuesday, January 9th and 10th.

A fine program has been prepared, and if the attendance is good the institute will be one of the most interesting and beneficial the Allen county farmers have ever held.

President Alexander Johnson, assisted by the other officers of the institute, has spared no pains to insure a good meeting, and it only remains for the farmers to second his efforts by attending.

Among the speakers from abroad will be Mrs. J. C. Erwin, of Rochester, Marshall county, one of the ablest and most felicitous institute workers in the state. Among the interesting topics which Mrs. Erwin discusses are the following:

Household convenience. The best legacy for the children. How to increase the cheer and comforts of the home. Responsibility for the success or failure of our children. Farmers' club and reading circles. Our greatest need.

Another speaker of note among Indiana farmers will be C. M. Hobbs, of Bridgeport, Marion county. Mr. Hobbs gives special attention to the discussion of the following subjects:

The planting and care of an orchard. Fruit for the farm. Small fruit growing. Spraying. Marketing fruit. Ornamental horticulture. Tillage. San Jose scale. Necessity of special education for the successful pursuits of agriculture.

There will be papers and addresses by the most progressive farmers in Allen county and general discussions by the institute which cannot fail to be beneficial. President Johnson hopes to see the best attendance that has ever been present at an Allen county institute.

INDIANA FARMERS.

Various Agricultural Bodies Begin Their Meetings in Indianapolis.

INDIANAPOLIS, Ind., Jan. 4.—The Delegate State board of Agriculture, the parent body of the many farmers' associations in the state, began its annual meeting here yesterday. Mayor Taggart welcomed the delegates, and Governor Mount delivered an address, in which he took strong ground in favor of rural mail delivery. President Downing, in his review of the work of the year, made no reference to the plan of turning over the property of the board to the state. "The Benefits of the State Fair" were discussed from various standpoints.

The Indiana Short-horn Cattle Breeders' association discussed several papers and elected the following officers:

President—Isaac I. Hammond, Greencastle.

Secretary—W. J. Quick, Brooklyn.

Treasurer—A. E. Leavitt, Vernon.

The session of the Indiana Wool Growers' association was opened with an address by Governor Mount. Many papers of interest to sheep raisers were read and discussed.

MR. DINGLEY WORSE.

The Maine Congressman Passes a Poor Night and is Weaker.

WASHINGTON, Jan. 4.—Representative Dingley was not quite so well this morning. The weather is muggy and the atmosphere is thus affected him unfavorably, causing renewed fears that in his weakened state the best efforts of the physicians might not avail to save him.

Mr. Dingley spent a very restless night and this morning he had a high fever and was quite a little weaker.

QUICK DELIVERY.

Earlier Arrival of Eastern Mail An Advantage.

Business Men Can Get Their Letters Fifteen Hours Sooner Than Heretofore.

By a change of mail trains which has just taken place on the Pennsylvania railroad, the business men will get the advantage of a late afternoon delivery of eastern mail, which they had to wait for until the following morning during the old mail schedule.

The eastern mail formerly arrived on No. 7, due here at 5:10, making it too late for delivery. No. 7 has been abolished and a second No. 9, arriving here at 4:10, makes it possible to get the mail down to the postoffice and distributed for the late afternoon delivery in the business district. It is an important item for the business men.

WOMAN'S ORCHESTRA.

The Next Attraction in the Woman's Club League Course—Highly Endorsed.

The Woman's Club league will have as the next attraction in the entertainment course the Fadetes Woman's orchestra, of Boston.

This orchestra is at once the representative, unrivaled and unequaled organization of America's young women musicians. Organized in 1893, and incorporated in 1895, they proudly point to ten years of phenomenal success, from a practical business standpoint, on musical lines, and are now, as always, under the direction of Mrs. Caroline B. Nichols, an able and artistic leader, who has brought the orchestra to its present high position in the musical world. They command the highest commendation and endorsement from the most captious critics, who pronounce them "The Woman's orchestra par excellence." Each player is an artistic professional musician and soloist, and under skillful direction the result is everywhere apparent in the splendid ensemble and brilliant rendering of programs that comprise both classical and popular selections.

OLD CLOTHES SOCIAL.

Elks Day Will Appear Tonight Under the Auspices of the Lodge of Elks.

The Old Clothes social session of the Fort Wayne Elks will take place this evening at the Elks' hall, corner of Calhoun and Washington streets. Aside from the many features that have been arranged for the affair, the annual Elks' Day, characterist, will delight the members and friends with his characteristications, mimicry and stories. He is original and a great artist in all that the term applies, and is conceded the leader of entertainment in clubs in Chicago and elsewhere.

Each member of the lodge is permitted to invite one friend to the entertainment and outside of the membership, admission can be obtained in no other way.

TRAIN DERAILED.

Passenger Cars on Missouri Pacific Roll in the Missouri River.

ST. LOUIS, Mo., Jan. 4.—A special to the Post-Dispatch from Jefferson City, Mo., says:

Missouri Pacific passenger train No. 10 from Omaha and Kansas City to St. Louis was derailed about one mile west of this city at 2:30 a. m. Engineer Chas Shawson, of Sedalia, and Fireman Zolt, of St. Louis, were killed. They jumped as the engine struck a boulder on the track, but the machine rolled over onto them and into the Missouri river.

All the cars with the exception of the rear Pullman left the tracks away from the river and into the bluff. It is due to this fact that no lives among the ninety passengers aboard were lost. Traffic will be delayed for several hours.

KEELEY LEFT LITTLE.

Inventory of His Personal Estate Places It at $1,536.

PHILADELPHIA, Jan. 4.—The personal effects left by the late John F. W. Keeley, of motor fame, will be strikingly insignificant to the many persons who had magnified the resources of this inventor who proposed to move the mechanism of the world by an entirely new combination of forces. An inventory of his personal estate, filed here, places it at $1,536. The only reference made in the items of the appraisement to the motor is "fifteen pieces of experimental apparatus, certain rights of unknown valuation in certain uncompleted and unpatented inventions."

HITCH IN HONOLULU.

Islands Supreme Court and Treasury Agent at Odds on Chinese.

SAN FRANCISCO, Jan. 4.—The steamer Australia, from Honolulu, brings the following advices to the Associated Press:

"A great deal of trouble is expected here over the question of the admission of Chinese. The Hawaiian supreme court has ordered the landing of a large number of celestials, and Special Agent Brown, of the United States treasury department, is at a loss to know what to do in the premises. He has appealed to the administration for instructions."

In the Hands of the Trust.

LAWRENCE, Kas., Jan. 4.—The Consolidated Brown Wire company of this city has passed into the hands of the American Steel and Wire company. The sale includes the plant in Joliet, Ill., with a capacity of 2,000 tons a month, and the plant in this city, which embraces a wire drawing mill, nail mill and barb wire mill, the largest wire mills west of St. Louis.

MUNICIPAL AFFAIRS.

Mayor and Appointees Discuss Charter Changes.

Two Council Committees Hold Meetings Last Evening—Board of Works Meets for First Time in 1899.

Mayor Scherer yesterday afternoon held a conference with several of his appointees. The following gentlemen were present: City Attorney Shambaugh, Comptroller Burghoff, Engineer Bruhill and Messrs. Eggemann and Kane, of the board of works. The administration forces expressed themselves satisfied, of course, at the political aspect of city affairs, but all were in favor of making amendments to the charter. City Attorney Shambaugh and Comptroller Berghoff will probably meet with the citizens' committee tomorrow at the Fort Wayne club.

One recommendation will provide for making compulsory the payment of interest on improvement bonds and making it possible to protect the purchaser of these bonds. Another amendment provides for the notification by publication of all contemplated sewer improvements. At present residents property owners must be personally notified and there must be a publication for non-resident property owners. The mayor and appointees are in favor of many other changes, but they will probably submit only the two mentioned.

COUNCIL COMMITTEES.

The committee on streets met and discussed Councilman Polzen's resolution, which provides for the moving of the wholesale markets from Harrison to Barr streets and changing of both streets were present and submitted arguments in favor of the two locations. Definate action was postponed until next Monday evening.

The committee on rules, regulations and ordinances met to consider the ordinance providing for placing wires underground. They expected to meet representatives of the several companies, but Charles Guild, of the Jersey Electric Light and Power company, was the only representative present. He stated that his company had decided to place its wires underground, but owing to R. T. McDonald's death asked for further time. The committee meets again Monday evening.

BOARD OF WORKS.

The board of public works yesterday afternoon held its first meeting in 1899. A petition was received from property owners on Holman street asking that the street be paved from Calhoun to Hanna street. Already a petition had been filed asking the board to pave the street from Calhoun to Lafayette with asphalt, and inasmuch as the board of works is always inclined to grant the wishes of property owners in their petition for improvements, asphalt will probably be used to Hanna street provided the thoroughfare is paved as far.

A remonstrance, signed numerously, was presented against the proposed paving of Fourth street, from Sherman street to North Calhoun street.

The annual report of the city civil engineer was presented by Mr. Randall.

BOARD OF SAFETY.

Messrs. Buck and Kasten were the only members present, Mr. Wilson being ill so attend. It was intended to prepare the annual report, but postponement was agreed upon on account of Mr. Wilson's illness.

RHEUMATIC TORTURE.

Facts of Great Interest to Those Who Are in the Clutches of Rheumatism.

A Simple Remedy Which Cured Many Cases of Over 30 Years Standing.

There is no doubt that the new remedy Gloria Tonic is the greatest specific for the cure of rheumatism. When it is considered that patients, after suffering 30 or 40 years, helpless, crippled and bed-ridden, were completely cured, there can be no question that Gloria Tonic is the one specific that can be relied upon. Rev. C. Sand, of Harrisville, Wis., testifies that Gloria Tonic cured two members of his congregation of rheumatism, one who suffered for 18 years, the other for 25 years. Mrs. Mina Schult, of Marion, Ohio, wrote the maker of Gloria Tonic, that his remedy cured her so completely that she needed no more crutches. She then cured an old lady of rheumatism whose age is 82 years. Gloria Tonic also cured a druggist who had suffered for 22 years.

Gloria Tonic is made by John A. Smith, 188 and 190 Summerfield Church bldg., Milwaukee, Wis., and is for sale at all druggists at $1 a package. Be sure and get Gloria Tonic, the well seated remedy for the cure of rheumatism.

A little book on rheumatism will be mailed free to any reader who will send his address to Mr. Smith.

Harry Sindebaker, of Bluffton, is in the city.

NEWS OF THE RAIL.

Engineer P. H. Keegan Makes a Creditable Run.

Drives a Heavy Train Nineteen Miles in Seventeen Minutes—Fast Time on the Omaha Line.

In those days of fast runs it may be of interest to the public to know that the Pennsylvania is doing a little in that line. In fact, a new fast run record was established only last Monday afternoon. The train was the west bound mail, due here at 4:25, and the engineer was P. H. Keegan. This train was late in leaving Lima, and the engineer had instructions to make up as much of the lost time as possible. He covered the sixty miles between that city and Fort Wayne in sixty-four minutes, including two stops. From Convoy to Adams station, nineteen miles, the train only consumed seventeen minutes. This train was the usual heavy affair, which fact makes the high speed attained by it all the more remarkable.

New Fast Mail on the Pittsburg.

There will be two sections of Pennsylvania train No. 9 hereafter. One will carry mail only. It leaves Pittsburg two hours later than the regular passenger train, running as No. 7 as far as Crestline. There it becomes a second No. 9 and passes the passenger train en route to Chicago, reaching that city at 9 o'clock, one half hour ahead of the passenger train. At Chicago close connections are made with the fast mails on the Northwestern and the Burlington roads for the west.

The First Trip a Success.

A speed of a mile in thirty-seven seconds was attained by the fast mail trains on the Northwestern and the Burlington on their first trip from Chicago to Omaha Monday night. The distance between the two cities by the Northwestern route is 492 miles. It was covered in nine hours and fifty-eight minutes, including eighteen stops. Over the Burlington route, the distance is 502 miles and the train traveled it in ten hours and seven minutes, including twelve stops. An eastbound train on the Burlington Monday night beat this record by several minutes. It left Omaha one hour late and went into Chicago only four minutes late. And the schedule is thirty minutes faster than that of the westbound trains. The previous record was held by the Northwestern, having been made with a special train carrying a party of railroad officials to the exposition.

The Jackson Funeral.

The funeral of the late Brownell Jackson will be attended by a number of his shopmates, although the shops will not be closed for that purpose. The pall bearers will be Fred Hilgeman, Frank Schafer, Clifford Hosler, John Fahlsing, Herbert Brown and Henry Hilgeman. The three former are employes in the shops where the deceased worked so long. The funeral will take place tomorrow afternoon at 1:30 from the house and at 2 o'clock from the Baptist church.

Wreck Near Plymouth.

At 8:30 o'clock this morning a fast freight train broke in two two miles west of Plymouth and in the collision of the severed parts of the train, seven cars were derailed and more or less damaged. The tracks were blocked about five hours, causing delay in arrival of the passenger trains. No. 3, the westbound limited, detoured from Plymouth to Hamlet, going over the Lake Erie & Western, the Nickel Plate and the Indiana, Illinois and Iowa. The wrecked cars were loaded with lard, flour and sugar. No damage to life or limb. The wreck crews from this city and Valparaiso were summoned to clear the tracks and pick up the freight and damaged cars.

A New Gas Engine.

Frank Burger, of 378 East Washington street, announces that he has perfected a gas engine which possesses a number of points which are entirely different from the ordinary gas engine, the chief advantage being that the action is quicker and more on the order of a steam engine. The usual run of gas engines are made to operate by explosions of gas, which force the piston to perform its work. Those explosions occur at regular intervals. In large gas engines there has been need of some improvement in this direction and Mr. Burger says he has solved the problem. Tests will be conducted in public in the near future.

Election Again Postponed.

BALTIMORE, Jan. 4.—An adjourned meeting of the stockholders of the Baltimore and Ohio Railroad company was held here today for the purpose of electing directors for the coming year. It was decided to take no action at this time and the meeting was again adjourned until February 9th, at 2 p. m.

He will soon be able to wear an artificial foot, when he will walk almost as well as ever. Mr. Kanaga took a trip over his old run yesterday, going down to Crestline and calling upon his old friends there.

An immense amount of flour is being shipped through Fort Wayne at present. Freight men have calculated that it has been going through at the rate of 100 cars a day. This morning a solid train of twenty-eight cars of freight was received from the Grand Rapids and Indiana, and transferred to the Nickel Plate for the east.

C. H. Sick, the operator, who has been spending a holiday vacation with relatives at Pierceton and Knox, this morning resumed his place in the Nickel Plate yard office, relieving W. C. Norton, who will go "out on the road," probably to Hammond, to work. The latter has only recently recovered from an attack of rheumatism which disabled him five or six weeks.

OF NOBLE LINEAGE.

Valuable Angora Cat Owned by F. J. Stutesman.

Is a Grandson of the Famous $5,000 Cat, "Napoleon the Great."

The most distinguished guest at the Randall today is "Teddy." Who Teddy is will interest almost every body, especially when it is known that he has descended from a noble and historic family of France. He is a large and handsome Angora cat, whose ancestors are written up at length in this week's issue of Harper's Bazaar. He is the son of "Silver Dick," a noted feline who has set the people wild at St. Louis cat shows and he is the grandson of the world-wide famous "Napoleon the Great," who could not be bought for less than $5,000.

Napoleon the Great is owned now by Mrs. Charles Wood, of Woodhaven, L. I., but he was born in a cabaret near Fountainblau, France, and belonged to a high family.

Teddy is a beautiful specimen of the species. Although large now at his seven months' growth, he has not attained his full size. When traveling men call at the Randall they all inquire after Teddy and plenty of room is left in Indiana so universally admired as this one.

UNIQUE ORGANIZATION.

Chicago Painters, Decorators and Frescoers Will Try Co-operative.

CHICAGO, Jan. 4.—A number of Chicago painters, decorators and frescoers have formed a co operative association, which has been incorporated at Springfield. Charles Fritz, secretary of the new organization, said he did not believe the association would enter into competition with men who were paying union wages.

Where contractors did not pay union wages, he said, the association would be able to defeat them for the reason that the jobs could be figured at cost prices.

Certain manufacturers have said they would not furnish raw material to the members of the association, and to meet this a sum of money will be set aside for the purpose of establishing a factory under the control of the co operative organization.

Senator Hunt Pay Expenses.

SAN FRANCISCO, Jan. 1.—United States Circuit Judge Morrow has decided that the stamp tax on telegraph messages must be paid by the sender and not by the company. The decision was rendered in the case of J. Waldere Kirk against the Western Union Telegraph company. Kirk, who is known as the "king of the dudes," tendered a message to the telegraph company, but declined to pay for the stamp required by the war revenue law.

The Two Coal Face Questions.

An argument in behalf of two-cent fares on railways is that if one thousand mile tickets can be sold at two cents per mile, the railways ought to be willing to make that rate for all tickets. It has been shown that at the current rate of three cents per mile for sixty tickets and two cents for those the average is nearly a fraction above two cents per mile for each passenger carried, and that the net earnings on that basis are insignificant. The injustice of still further reducing railway earnings is therefore apparent.

It is argued too, that because people with ample means are able to take advantage of the special rate for mileage tickets, there is discrimination against persons who can not afford to purchase such tickets. This is also unreasonable. In selling 1,000 mile tickets the railways are following the rule which obtains in all branches of business. Large quantities of certain articles purchased at one time can usually be secured at less than the single rate. Sellers make lower prices in such cases and buyers always expect them. It is just as consistent to say the baker who charges a dime a dozen for biscuits is discriminating against his patrons who buy less at one cent each.

Dropped Like the Pellet.

The governor general of Canada does not like the ballet girls, and for this reason Montreal society is greatly depressed. Her Majesty's theater will be opened on November 7 amid a dazzling blaze of light and brilliant display of jeweled beauties. All the swells from aristocrat down to he at the opening, so it had been noised around that the governor general had taken a box, and that their excellencies would be on hand to grace the opening of the new theater. The play for the opening night will be "The Ballet Girls," and it was expected by the management that Lord and Lady Aberdeen would come at the asking. However, the representatives of Her Majesty's theater went to Ottawa to invite the representatives of her majesty, and here the trouble began. Lady Aberdeen took the envoy that her husband did not take kindly to the performances of ballet girls, and that consequently they would be obliged to withhold their patronage. There are long faces in the old town tonight.—Ottawa Free Press.

Sale of a Noted Dog.

Alfred H. Hilker has purchased from Weeks & Turner of the Springhill farm kennels the well known wire-haired fox terrier Springhill Uno. This little dog, though still quite young, has won a great record on the bench. His successful career was begun at the New York show one year ago, where, after a close competition in the puppy class, he was awarded a second to the Canadian champion, Adam Bredell, owned by Sir Andrew Macdonald. The Canadian caught cold and died immediately after the show, but Uno's strong constitution carried him on to undisputed victory throughout the circuit, including Chicago, St. Louis, Louisville and Pittsburg, making him the best wire haired that year. His breeding qualities while not in the ring, being the English winner Halifax Revival, out of Maybrook Vixen. Amateur fanciers are glad that the best wire-haired fox terrier ever bred in Maryland has been sold to a local owner and will remain in Maryland.—Baltimore Sun.

MISSED HIS CHANCE.

And Perhaps He Didn't Mind Missing "Dr. Either."

It was on a Sabbath morning, and George Murgatroyd had just turned over to keep again, after making his daily resolution to get up. But the cry, though weird, anxiety and trepidation, that came from the room below, banished sleep instantly.

It was his wife's voice—the dear girl whom he had taken from a parent's—or rather two parents'—care.

"George! Come, quick!"

What could be the matter?

"George! Why don't you come? Come! Come!"

In his frantic haste he had on his trousers and part of his shirt when he was a wreck, but what of that! Like a flash it came to him, the tale of yesterday, told by his little wife, at which he had scoffed. A tale of a single armed man who came to read the gas meter and who had behaved so strangely that Maud suspected him of being a burglar's spy. The man had come again—even now perhaps—

"George! If you don't come, it'll be too late."

What were collar studs now that he should search for them? With one bound he overturned the rocking chair and smashed the water jug in another leap he had collided with the open door of the wardrobe, at the third step he tripped over his boots and came down on his elbows and countenance.

"George, Maud," he cried, "I am coming."

He was only a pale bookkeeper, and mourned save with nature's weapons, but not for a moment did he falter.

"You're too late," said Maud with a pretty pout as George dashed into the room with a fire in his eye that the blood in his nose could not dim.

"What—where is he?" he gasped, looking around with an awful faintness at his heart.

"I wanted you to see the baby," said she in a disappointed voice. "He had his foot in his mouth, and you're no use when pretty the little dear looked."—Boston Traveler.

Not at All Surprising.

"The girls of your—er—country rather—ah—puzzle me," said the visiting foreigner.

"Not at all surprising," replied the native. "We are hardly used to some of them ourselves. But to which girls of our country do you refer—the New York girls or the Hawaiian girls or the Chicago girls or the Paris Beau girls or the London girls or the Philippine girls or the New Orleans girls or the Cuban girls or the St. Louis girls or the Indian girls or the Philadelphia girls or the Alaskan girls or the—"
